AI Tools for Frontend
Chat-GPT Co-Pilot Figma-Plugins

PROJECT

Portfolio with Cutting-Edge Interactivity
https://github.com/swapnil23101998/Portfolio

Crafted an innovative personal portfolio with React, incorporating sophisticated JavaScript libraries like Framer Motion, Particles.js, and Swiper.js. This dynamic fosters an immersive user experience, adeptly presenting my skills and expertise with React's capabilities.

Elevating E-Commerce Experience with Vue.js
https://github.com/swapnil23101998/VUE-Mart

Developed a robust e-commerce platform using Vue.js using real time api of DummyJson.com, featuring a comprehensive catalog, detailed product screens, and a seamless shopping cart screen. VueCart ensures a smooth, interactive, and visually appealing online shopping experience.

Real-Time Gym Information Portal
https://github.com/swapnil23101998/GYM_website

Developed an advanced gym website using React and real-time APIs from Rapidapi.com. This project not only significantly enhanced my proficiency in integrating real-time APIs but also demonstrated a pragmatic grasp of dynamic data retrieval.

WORK EXPERIENCE

SOFTWARE DEVELOPMENT ENGINEER

PAYTM ONE 97 COMMUNICATION   2022 Apr - Present

- Designed and implemented an innovative **Answering Machine** for merchants at Paytm, enabling merchants to address concerns and gain clarity regarding their settlements and devices, thereby optimizing their Paytm usage.

- Solely managed and oversaw the entire **Subscriptions** project of Paytm from the frontend which tracks entire subscription history of merchants, demonstrating adept **project management skills**. This also contributed significantly to the enhancement of my in-depth knowledge and proficiency in **Vue.js**.

- Orchestrated the development and implementation of impactful onboarding journeys, including **Store Cashback** and **Deals Onboarding**, successfully increased merchant engagement and played a key role in expanding **Paytm's merchant base**.

MEMBER OF TECHNICAL STAFF

ORACLE India Pvt. Ltd.   2020 Sept - 2022 Apr

- Successfully revamped the visual experience of the **OCM product** by replacing existing icons with **Oracle images**. This initiative aimed at ensuring optimal support for various **high contrast modes**, contributing to a more inclusive user interface.

- Played a pivotal role in enhancing the (OCM) product by spearheading the development of the **Starter Edition** feature fostering user engagement and promoting the transition to a premium subscription.

- Undertook a significant **performance improvement** initiative for the Oracle Cloud Management (OCM) platform. Replaced the usage of jQuery with more efficient **jQuery-UI-Widgets.**

- Implemented a **text-to-speech** feature across all screens, thereby enhancing the overall **accessibility** of the OCM product. This effort was crucial in providing a seamless experience for users with diverse needs.

ACHIEVEMENTS

1. Attained a position within the top 20 in the Paytm GPT Hackathon, outshining over 300 competitors.
2. Appointed as Chairperson of IEEE SB NIT Raipur, spearheading a 30-member team. Orchestrated workshops on AI, ML, and web development, impacting students from diverse colleges across Chhattisgarh.
3. Distinguished as the Head Boy at AVP School (2015-16), showcasing leadership and organizational skills in a pivotal role.
